Lattice Reduction at Dimension 2

- Gotta love it when he says “makes sense?” but you’re totally lost and don’t know what question to ask to get you back on track
- Grateful that I have the internet to teach me the material for this class
- Why am I even here rn
- He mentioned something about a dot product but I got distracted when I saw that American Idol is accepting auditions for next season
 - I got a call back for the season that’s currently airing, but considering that I’m in class instead of performing on American Idol, we can all see that I didn’t get very far
- I’m sorry my notes suck today, I’m on the struggle bus. Maybe they’ll be better on Friday/next week
 - Or maybe I’ll skip class Friday because it’s my birthday who knows

Closest Vector Problem

- I haven’t really been paying attention but I figured I’d at least let you guys know what he’s talking about today
